Description

I am full of ideas in the UI department these past days. How about we have a scrolling option enabled on Credits pages so instead of trying to fit two sentences into one, we can have text as long as we need; easily add names of everyone who contributed.

Use: low resolution players can see the Credits properly. Higher resolution players are fine because bigger screen space.

- Target version set to 2.78

Afair NQ mod implement something similar. It's not been added in Legacy mod since credits were quite short until now, and there is indeed an increasing space issue as time goes by.

- Target version changed from 2.78 to 2.77

#3 - 12.01.2019 16:17 - IR4T4

- Priority changed from Normal to Low

- Target version changed from 2.77 to ALL

#4 - 31.01.2019 15:56 - Spyhawk

- Target version changed from ALL to 2.77

We're running out of space in the credits page. We should ideally handle this for 2.77.
