

ET: Legacy Development - Bug #1206

Crouch makes the door open to the wrong direction (Linux 32 bit)

13.02.2019 22:08 - Harlekin

Status:	In Progress	% Done:	0%
Priority:	Normal		
Assignee:			
Category:	Mod generic		
Target version:	2.77		
OS:	Linux	Arch:	32-bit
Description			
Noticed that doors open to the wrong direction, if i try to open them crouched. eg: Radar the door at the gate opens towards the player if i come from the axis bracks side.

History

#1 - 14.02.2019 11:20 - Spyhawk

- Category set to Mod generic
- Target version set to 2.77

#2 - 14.02.2019 16:45 - Spyhawk

- Status changed from New to Can't reproduce

Cannot reproduce. Are you sure somebody else (bot?) didn't open the door from the other side?

#3 - 14.02.2019 18:14 - IR4T4

Axis team door near big gate on radar seems to have issues. The direction of opening is alternating.

How to reproduce:
Spawn as axis and open the door from gate side only.

#4 - 14.02.2019 18:15 - IR4T4

- Status changed from Can't reproduce to In Progress

#5 - 14.02.2019 19:47 - Spyhawk

Which "gate" are we talking about? The gate the allies have to dynamite, near the truck that collects the radar parts? I still can't reproduce.

#6 - 14.02.2019 20:11 - Harlekin

- File 2019-02-14-200840-frostbite.dm_84 added

It is viewangle related. i add a demo to show it.

#7 - 14.02.2019 21:49 - Spyhawk

- OS set to Linux

It looks like the issue is platform specific. It doesn't happen on windows (localhost) but it looks like it does when qagame is hosted on a Linux machine

#8 - 09.03.2019 18:34 - Spyhawk

The issue seems to appear on Linux 32 bit only. This is likely related to a math library issue (ie, check MAX_PATCH_PLANE related code).

#9 - 14.03.2019 11:56 - Spyhawk

- Arch set to 32-bit

#10 - 21.03.2019 18:38 - Spyhawk

- Related to Bug #1095: Slicks are bugged on 32bit build added

#11 - 21.03.2019 18:38 - Spyhawk

- Subject changed from Crouch makes the door open to the wrong direction to Crouch makes the door open to the wrong direction (Linux 32 bit)
