

ET: Legacy Development - Bug #317

Undesired CAPS_LOCK behavior

12.07.2013 17:11 - Das_Fleisch

Status: Fixed	% Done: 100%

Target version: 2.71rc2	
OS:	Arch:
Description Since CAPS_LOCK is right next to the WASD-keys, I like to bind it to a "weapon"-key (instead of the number keys). This works, but it only works every second time I hit the key (it works when "activating CAPS_LOCK", but it doesn't work when "deactivating CAPS_LOCK"). It should work every time the key is pressed, like the original ET client.

- Category set to Client

- Target version set to 2.71rc2

#2 - 14.07.2013 11:33 - IR4T4

Please tell us your OS an your bind cmd.

#3 - 14.07.2013 11:33 - IR4T4

- Status changed from New to Feedback

#4 - 14.07.2013 20:09 - Das_Fleisch

Windows 7 SP1 (amd64)

I used the keymap dialog, clicked on the button I wanted to change, then hit CAPSLOCK.

etconfig.cfg

bind CAPSLOCK "weaponbank 5"

#5 - 14.07.2013 20:19 - IR4T4

- Status changed from *Feedback* to *New*

#6 - 31.07.2013 11:08 - IR4T4

- % Done changed from 0 to 20

~~We have to change the standard keyboard CAPSLOCK behaviour to ignore the keystate (up/down) when used as control key.~~

#7 - 31.07.2013 19:50 - IR4T4

- Status changed from *New* to *Fixed*

- % Done changed from 20 to 100

Applied in changeset commit:0b8a9e0e94eb125ec7bcd74eb3d319ae5e00d3e.
